We like to host quarterly meetings with administrators, members of procurement, property/facility manager's and/or catering representatives to help us adjust to your needs. We gather input daily by interacting with customers EVERYDAY.
- Each café will have a dedicated onsite manager for the local operation and a catering manager available to handle all catering requests.
- Each café employee will follow strict HSSE, LJ's Code of Conduct policy, Food Safety criteria and our general Standard Operating Procedures. LJ's always adheres to all HACCP guidelines.
- Our continued growth has increased our scope of purchasing power. This has enabled us to buy the highest quality products, at more competitive rates, which is passed on to the customer. LJ's and our clients will create a price conscious menu that will satisfy the tastes and needs of the café patrons and company employees.
- We understand each account is different and we thrive on customizing our cafeteria menus and operations individually. We work hard to keep abreast of market trends and the ever changing demand of our foodservice customers. We will introduce new items to each location and adjust menus to meet specific desires of our customer base.
- We have built a good reputation and following with our "old favorites" and new innovative menu options. We introduce foods inspired by many different Ethnic cuisines as well as traditional comfort foods. We take pride in having hundreds of homemade items and specials to create a distinctive menu based on customer feedback.
